FOR the transportation of Produce, Merchandize, etc., from, and to, New York and the Western States in connection with the

BUFFALO AND CHICAGO LINE OF STEAMBOATS.

Lady Elgin, Hendrick Hudson, Sultana,
Louisiana, Globe, Wisconsin.

The proprietors of the Eckford Line would particularly call the attention of the Merchants of Wisconsin, Illinois, and other Western and South-western States to the superior facilities of their line for transportation to, and from, the ports on the Upper Lakes. The above line of Steamboats runs direct to our Dock, at Buffalo, and all goods contracted by this line for the Upper Lakes will be shipped (unless otherwise ordered or contracted) by *Steamboats*, (not Propellers) with but one, or possibly two exceptions. The Eckford is the only Line not interested in, or committed to, a Propeller Upper Lake Line; and in endeavoring to sustain a line of *Steamboats* on that route, the Proprietors hope to receive the support and patronage of the Merchants of the Western States, when interest demands the continuance of a line of such a class of Boats. Boats leave New York and Buffalo daily.

THE undersigned would respectfully solicit the attention of dealers in and consumers of Coal in Milwaukee to our Card, as above. The Bolivar Coal is unquestionably superior to any other mined in Ohio, for Grate, Blacksmithing, Machinery, or Domestic purposes; and for Steam purposes, is superior to any except Briar Hill. It is peculiarly well adapted to Shipping, as its extreme hardness renders it capable of bearing any amount of handling, without waste. It can be afforded considerably cheaper than Brier Hill, and for most purposes is better.

It is our wish to introduce the article, and we respectfully solicit orders, confident that a trial is only necessary to convince any of the truth of the above assertion.

Citizens of Milwaukee and vicinity, to be convinced of the truth of my assertion, and have their Horses properly attended to, so as not be maimed, interfere, &c., had better call and examine for themselves, for they will have their work done as I say, and at $1 per set for Plain Shoes; Extra Shoes $1,25; Bar Shoes $1,00 per pair; Sandals $2,50 per pair; and all other work to suit the times. Its business is principally confined to this State.

STOVES,
(BOTH WOOD AND COAL,)
FOR COOKING, PARLOR & OFFICE USE; GRATES, FIRE FRONTS, CITY AND COUNTRY HOLLOW WARE, KETTLES of all kinds; SAD-IRONS, STRAW-CUTTERS, CORN-CRACKERS & SHELLERS, AGRICULTURAL IMPLEMENTS, AND PORTABLE
GRIST MILLS.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
DOUBLE OVEN COOKING STOVE,
(Which received the First Premium at the State Fair, lately held at Janesville,)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with large doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an article in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

MILWAUKEE, Sept. 20, 1852.

Disinterested Evidence.

In 1838 a public entertainment was given to General WINFIELD SCOTT, by the prominent citizens of Albany of both political parties, in consideration of the eminent services rendered to his country, in Peace as well as in War, by the Hero of Chippewa. Lt. Governor TRACY, a Democrat, presided at the festive board, and Mr. JOHN A. KING, a Whig member of Assembly, officiated as Vice President. Gov. MARCY was among the invited guests assembled to do honor to WINFIELD SCOTT. As the old Hero was not then a candidate for the Presidency, it was not deemed necessary to revile his character, depreciate his services, or misrepresent his sentiments. On the contrary, both Whigs and Democrats heartily united in paying the tribute of their honest admiration to the gallant and accomplished Soldier.

Among the speakers on the occasion was the Hon. LEVI HUBBELL, now Judge of the Circuit Court in this State, whose happy remarks and appropriate sentiment are thus quoted in the newspapers of the day:

General L. Hubbell, (a Democrat, now a judge in Wisconsin,) on rising to propose a sentiment, remarked that, in his early childhood, he had heard of the valor, the achievements, and the glory of a gallant officer then in command as a brigadier general on our northern frontier. His eminent abilities as a disciplinarian, his zeal, his energy, and his devotion to the cause of the war, won the confidence alike of the army and of the country, and filled our whole State with his fame; a fame as honorable to him as it was spontaneous and universal in the hearts of the people. Tho' born in a distant State, he hastened to our defenceless lines on the approach of danger, and nobly perilled his life in defending the territory, the liberty and the homes of New York from the aggression of a foreign enemy. The enemy, sir, at that time, was in the Canadas, and was the Canadas.

Years have elapsed, and we have again beheld this same officer, at the command of his country, repairing to our frontier; not as before, to defend our people from the hostile attacks of the Canadas, but from the threatened aggression of our citizens. Being himself, as has been here justly remarked, an apt exemplar of *obedience* to the civil authorities, he was a fit instrument, if I may so speak, in the hands of the general government, to "enforce the rights of neutrality, to restore the reign of order, and to vindicate the majesty of the laws." I propose to offer you a sentiment in allusion to the two distinguished eras in his public life. I give you, sir:

"*Our Guest:* The invincible champion of our rights; *the triumphant vindicator of our laws.*"

THE "PIERCE" GATHERING.—The great Mass Meeting of the "PIERCE and KING" democracy, announced in all the party papers and placarded about the streets for a week past, came off in this city, yesterday afternoon. A heavy cannonade of some half hours duration, followed by the inviting strains of a band of music, summoned the assembled multitudes together to listen to the eloquence of General CAESAR AUGUSTUS DODGE and Dr. MAXWELL. The multitudes, when so collected, numbered in the neighborhood of seven or eight hundred people, whereof about two hundred were from the country and the rest residents of the city. The speaking was of the most commonplace and ineffective description; the applause feeble and insincere; and the whole meeting tame and spiritless.

MORE NATIVISM.—Mr. THOMAS G. DAVIDSON is one of the Loco Foco candidates for Presidential Electors in Louisiana. A letter from him shows that he was a very ardent Native American in 1842; so earnest, indeed, that he rebuked the Louisiana N. A. Association for not making their one idea paramount to all others. That is rather worse than JOB HASKELL's Nativism, if possible.

"WORDS OF WARNING."—The *News* insists that its dolorous article, embodying "a word of warning" to some parties unknown, touching some mysterious operations in reference to political matters in this State, was a genuine *home* production. We had given it credit for more sagacity than to suppose it would originate so silly a production.

THE ELECTION RETURNS.

We give, this morning, some additional election returns, tho' not yet sufficient to decide the result. They render certain the election of Judge WHITON as Chief Justice; and increase the probabilities that MARSHALL M. STRONG and A. D SMITH are chosen Associates. The West, and the extreme North, however, may yet change the aspect of the matter.

Fond du Lac, Sept. 27.

Messrs. Editors:

I have just learned the vote of our city—188 votes cast—Whiton received 120, Larrabee 67—rest of ticket nearly same, except that Smith may lead Knowlton. T.

THINGS IN NEW YORK.—We have never seen the time when things looked better in New York for the success of the whig ticket then now, at an equal distance of time before election, except in 1840. The nominations made at Syracuse for State offices, with unexampled unanimity, render success certain. With WASHINGTON HUNT for Governor, Judge KENT for Lieut. Governor, and THOS. KEMPSHALL for Canal Commissioner, they will sweep the state with an overwelming majority. As a striking illustration of the manner in which the whigs will pull together this fall, we notice that, at the late Erie County Congressional Convention, JOHN L. TALCOTT, who led the Scott delegates at the Baltimore Convention, arose and moved that S. G. HAVEN, the present member, and "a Fillmore man," be renominated by acclamation. The motion was received as a proof of a determination to "bury the hatchet," and carried unanimously.

The majority for SCOTT and GRAHAM and the Whig State ticket which Western New York will pour across Cayuga bridge this fall will astonish some folks who don't know what the whigs in that region can do if they try.

The contest is still further narrowed down, as we have shown by recent developments, to *a mere party contest* between the candidates for Chief Justice.—*Madison Democrat.*

So said the *Democrat* on the eve of election. No doubt it will *not* make haste to *unsay* its previous statement.

The same paper, rallying the party forces to the support of the regular ticket, exclaims:

> He who is not for us is against us. The time calls for the best efforts of every true party man. Rally for the fight—the enemy is in force, active and unscrupulous as usual. *Mark* the columns and *shoot the deserters.*

"Shoot" away gentlemen! If you *insist* upon drumming out of your party as "deserters" all who *dared* to vote independently at the recent Judicial election, the SCOTT men will have easy work in carrying Wisconsin on the 2nd day of November.

AN EPITAPH.—Many of the Loco Foco papers have lately been publishing a fac-simile of the grave-stone which they intend to erect over the remains of Gen'l Pierce after the 2nd of November. The inscription is about as veracious as such affairs generally are. A part of it reads thus:

"*He fought at the battles of*
CONTRERAS
CHURUBUSCO
MOLINO DEL REY
and
GARITA DE BELEN."

So says the tombstone; but history records that the general fainted before the action at Churubusco, just out of reach of the enemy's fire, and was not in either of the two following battles at all!

"THE CONFIDENCE-MAN."—The *News* politely tenders us its anonymous correspondent's letter, certifying that Mr. PIERCE is a good friend to Rivers and Harbors, and invites us to accept it as a set-off for Mr. PIERCE's own votes and declarations against all Congressional appropriations for these objects. We do Mr. PIERCE the justice to believe that these votes and declarations expressed his honest sentiments. The *News*, apparently, thinks that its candidate was dishonest in both.

MADISON & PRAIRIE DU CHIEN R. R.—On the opening of the books of this company at Prairie du Chien last week, the sum of $85,000 was subscribed to the stock of the company, and the balance necessary to organize was doubtless taken at Madison. The Crawford Co. *Courier* says:

> The Milwaukee and Mississippi road is already under contract to Madison, and will undoubtedly come to Arena. The latter point is where we meet the lake shore folks, and we are positively assured that when our road is ready for the iron, the directors of the M. & M. R. R. Company will be ready to consolidate with our Company and finish the road.

☞ It is reported that an appropriation of $8,000 has been made for the improvement of a harbor at this place. The report comes from the Hon. Isaac P. Walker, who surely ought to know if it is true. It has not been noticed in any of the published items of appropriations for the western shore of Lake Michigan, and our citizens wondered that we had thus been left out. It seems we were not.—*Washington Co. Blade.*

We learn from Senator WALKER that there *is* an appropriation of $8,000 for Port Washington in the River and Harbor Bill.

Milwaukee and La Crosse Railroad.

We copy from the Sauk Co. *Standard* a letter from Hon. MOSES M STRONG, giving interesting information as to the doing of the La Crosse railroad company, and calling a meeting to select delegates to a gathering of the friends of the road, to be held in this city on the 6th of October.

ASSEMBLY NOMINATIONS.—DAVID TIPPLE, of Rutland, and HARRY BARNS, of Middleton, are Loco Foco candidates for Assembly in two of the Dane county districts.

W. W. WOODMAN is a candidate of the same party in the 4th district of Jefferson county.

City Matters.

FINE FRUIT.—We are indebted to D. A. S. CASTLEMAN, of Delafield, for a few samples of his Fall Gage, which we think superior to any Gage we have yet seen in the State. We are also under obligations to our fellow-citizen, Dr. JAS. P. GREVES, for some beautiful apples, which are described in the accompanying note:

DEAR SIR:—Please accept the accompanying specimen of fruit from a tree in my garden. The tree bore nearly half a bushel, and these are a fair specimen of the whole. A very excellent pie apple—late fall—Maiden's Blush, by name. Not having any other variety, I cannot introduce them to the State Fair, altho' I doubt whether there will be any fairer fruit there.

Tuesday noon. Yours, &c.,
JAMES P. GREVES.

We shall keep the Doctor's apples on our Editor's Table, for a day or two, to let visitors see what beautiful fruit Wisconsin can produce.

Normal Institute and High School.

We have received from the Secretary, Rev. W. L. Parsons, a circular of this Institution. The spacious building erected for its accommodation is situated on the corner of Milwaukee and Division streets. It has three school-rooms—the largest 40 feet by 70, and 20 feet in height—a Library, Cabinet, Music, and numerous recitation rooms, all carefully arranged for health, comfort and improvement, with ample grounds for exercise. The Institution has three departments—the Primary School, the High School, and the Normal School. A thorough course of study is prescribed, and an able corps of teachers engaged, and nothing is wanting to make it one of the best institutions in the country. It is to be opened Monday, Oct 11th. Circulars, giving all particulars, can be had at Rood & Whittemore's.—*Free Democrat.*

We adopt and cheerfully endorse all that the *Free Democrat* says in relation to the High School. It is a valuable addition to the Educational facilities of our City and we hope to see it abundantly patronised.

CRICKET MATCH—*Milwaukee vs. Chicago.*—The long-talked-of Match between the Milwaukee and Chicago Cricket Clubs, is appointed to take place in Chicago, on Monday next. The Chicago Club have made ample arrangements for the accomodation of both players and spectators, and will be glad to see a large delegation from Milwaukee. Mr. JOHN BARNET, who was despatched to Chicago, in behalf of the Milwaukee Club, to complete the preliminaries, returned on Monday afternoon, greatly pleased with his trip and with the courtesy and hospitality extended to him by the gentlemen of the Chicago Club. He tells us that the Chicago "boys" are wide awake, and that much interest is felt in the match by the citizens generally. We do not doubt that the match will be vigorously contested, and attract a large crowd of spectators.

THE PANORAMA.—We again invite attention to the opening of the Panorama of Eden to-night at Gardiner's Hall.

From the testimony of persons who would not allow their names to be used to puff a poor performance of any kind, we think that we may safely promise great pleasure to those who visit this great work.

We shall take occasion to look at the canvass after it is unrolled, and say what we think of it. We hope that our people will recollect how much they lost in not visiting the Panorama of Italy. "A word to the wise, &c."

MILWAUKEE MUSICAL SOCIETY.—The first Concert for the season is to be given by the Milwaukee Musical Society, at their Hall in Dickerman's Block *this* evening. The Programme will be found in our advertising columns. During the summer the Hall has been thoroughly cleaned, whitewashed and newly furnished, and is now in very neat trim. The Programme for to-night promises a very agreeable entertainment and merits a full house. We trust that the liberality and musical taste of the Milwaukee public will ensure a continued and generous support to our Musical Society.

STENOGRAPHY.—Mr. STEWART HARDINGE is in our city, at the City Hotel, proposing to give private lessons in a system of stenography, or rather writing by sound, which will enable a person in a very short time to follow a speaker, with notes legible by a third person. He proposes to teach the art in a single lesson, and has certificates from persons connected with the press in various cities of the Union, testifying to his success in teaching.

EXCURSION TO WHITEWATER.—The Rail Road celebration at Whitewater takes place *to-morrow.* There is every prospect of "a good time" and, if the weather be not unpropitious there will no doubt be a large turn out. Tickets for the trip, at half the usual rate, can be obtained during this day at KIRBY'S, corner of East Water and Wisconsin Streets. The train starts at half past 7 in the morning, returning at night.

LAUNCH AND SALE.—Another fine schooner measuring about 120 tons, was launched by Capt. JONES on Saturday last from his yard on the Menomonee. The keel was laid on the 10th of August. That is putting things through to some purpose. The vessel has been sold for $4,500 to WM. B. HIBBARD. She will be fitted at once for service, and the indefatigable builder means to lay the keel of another immediately.

THE SAILORS FOR SCOTT.—The good schr. *Hagar* was loading at Williams' warehouse yesterday for Buffalo. Capt. WAFFLE carries a flag at his masthead inscribed "SCOTT & GRAHAM, AND HARBOR IMPROVEMENTS. The men who know what sort of harbors we have on the lakes, are just the men to know where to look to have them bettered.

BUSY TIMES.—The cars brought in yesterday morning over 5000 bus grain, with hosts of other matters, too numerous to mention. Freight was coming down in large quantities to go west, and there was a very fair earnest of the work that is to be done in that section of the city this fall.

FOR BUFFALO.—The fine steamer *Globe*, Capt. PRATT, arrived yesterday from Buffalo with a large load of passengers and freight. She goes down to-morrow evening, leaving Higby's pier at 8 o'clock.

For passage apply to H. K. JEROME, agent on Main St., near Huron.

PLEASANT PRAIRIE.—(Dem. ticket not reported.) Whiton 15, Strong 15, Knowlton 15.—*Wisconsin* of yesterday.

The "dem. ticket" did not receive any votes in Pleasant Prairie. That's the reason it was "not reported."

THE NEW ROMANCE.—NATHANIEL HAWTHORNE, author of "Twice Told Tales" and other fictitious works, has recently published a pleasant little romance, entitled the life of Pierce. It is an innocent little piece of pleasantry.

CHANNING ON SCOTT.—The venerated CHANNING said of Gen'l Scott:—"He is not only pre-eminent as a military leader, but he also possesses rare intellectual ability and moral greatness."

ACCIDENT.—At Lancaster, Grant Co., last week, as the Building Committee of the new Court house were inspecting the work, the scaffold fell, injuring Mr. David McKee, editor of the Potosi *Signal* quite seriously.

Normal Institute—Union Concert.

Messrs. Editors:—

A change of some importance having been made in the arrangements for the benefit of the Normal Institute and High School, the ladies, through your paper, would bespeak the interest of our community and others in the proposed *Union Concert.*

The ladies had, as announced, arranged a Promenade Concert for Thursday evening, October 7th, and solicited the services of the German Musical Society for the occasion. The latter Society, feeling disposed to favor the effort in behalf of the new Institution, but finding the appointment to be in conflict with their own previously arranged Concert, at once submitted the following very generous proposition, which has been acceded to by the Committee:—That the two efforts be merged into one; the Concert to be arranged and performed by the Milwaukee Musical Society in Gardiner's Hall, as at first contemplated by them, an additional attraction of Tableaux Vivants between the parts, to be provided by the ladies, and the profits to be equally shared by the Society and the Normal Institute.

It is confidently hoped that this combination of forces will render the occasion one of great attraction to the lovers of the Fine Arts as well as the friends of thorough Female Education, and that a very general attendance of citizens and strangers will be secured for the furtherance of these two great interests.

Railroad to Oshkosh.

We invite attention to the communication below, from on enterprising merchant in the northern part of the State. A glance at the map will show the feasibility of the Rail road connection proposed. We hope that those whose attention is particularly directed to the Fond du Lac road will take this proposed extension into consideration:—

OSHKOSH, Sept. 25th, 1852.

Editors Sentinel, Milwaukee—

GENTS:—I observe by an article in your paper, that the citizens of Milwaukee have voted $200,000 to aid in building a Railroad from that city to Fond du Lac. This is a grand move—but my object in addressing you is to draw your attention to the importance of extending the Road to Oshkosh, as being the general Depot of the Wolf River Lumber country, and the importance of the business of transporting the lumber of this region to market in the southern and central parts of this State, which would be no inconsiderable business; aside from this, large quantities of produce, which is now without a market, would undoubtedly seek one in that direction. These are matters—in my mind—of serious consideration to the projectors of this northern road, and would add largely to its business, and turn a large portion of the trade and business of this northern region to your city. Respectfully Yours,

A LUMBERMAN,
(and Subscriber of your Paper.)

County Agricultural Society—Special Notice.

At a meeting of the Executive Committee of the Milwaukee and Waukesha County Agricultural Society, at the office of F. Randall, Esq., Sept. 25th 1852, to take into consideration the refusal of the State Society to allow the holding of the County Fair on the grounds selected for the State Fair, it was unanimously

Resolved, That in consequence of the lateness of the time when they became informed that they could not occupy the grounds selected for the State Fair, that it will be impossible to fit up other grounds in season for the holding the county fair in season.

Resolved, That the Vice Presidents who have collected funds from individuals for Membership, be requested to pay the same back to the persons from whom received, and that all moneys paid to the Treasurer will be refunded by him to those who paid the same, if required.

Resolved, That in consequence of being refused the use of grounds selected for the State Fair, and the late hour when the same was made known to the Committee, after having received permission, as they supposed, from proper authority, it is inexpedient to hold a County Fair this year, and that the same is hereby postponed until next year and in consequence of such postponement, the meeting of the Society called at the State Fair grounds for the purpose of electing a Secretary, and to fill such vacancies as may exist, is likewise postponed till the annual meeting.

Resolved, That in the opinion of the Committee, could we have held our Fair as anticipated and as published, it would not have been inferior to that of any other County Fair, and been creditable to the two counties, and we have the fullest confidence in the great good the Society is capable of doing to the Agricultural, Horticultural, Manufacturing, and other interests of the counties, and that measures should be taken to hold a Fair another year, independent of any other Society's grounds, and it is believed by the Committee that no counties in this State can exhibit with more credit to themselves, or benefit to the best interests of the two counties; and the committee strongly urge the Society to take early and energetic measures for the purpose of holding a successful exhibition the coming year.

Resolved, That the several papers in the two counties are requested to publish the proceedings of this meeting.

A CHANGE OF TUNE!—The New York *Day Book*, a zealous WEBSTER paper and particularly unfriendly to Gen. SCOTT, has an article on "the election," in its issue of the 20th instant, which commences thus:

> "There is no denying that Gen. Scott's prospects are growing brighter, and his friends more confident of his success. The apathy that everywhere prevailed, during the summer month, is now giving way to excitement and enthusiasm.—Our exchange papers from Kentucky, Tenessee, Ohio, Indiana, and even Michigan contain glowing accounts of enthusiastic Scott meetings, and Whigs in each State confidently assert their power to carry all of those States for Scott. Michigan General Cass' State it is believed by them, will surely go for the hero of all the wars we ever had! There are any number of free soilers in Michigan who will vote for the Whig ticket, and with their popular candidate for Governor there is great probability that the State will go for Scott.
>
> "It is useless to shut our eyes to the truth; and that there has been a great change in the aspects of things within the last few weeks, no one can deny."

From the Providence Daily Times.

RECOLLECT, DEMOCRATS! that those who fought the battles of Mexico were *Democratic* generals—Pierce, Pillow, Butler, Worth, Wool, Shields, Lane, Smith, Quitman, Reilly, &c., They were the brave leaders who led the gallant troops to victory through the leaden hail-stones from the enemy's clouds of War. Hand to hand they fought and conquered, while General Scott sat safely at a distance giving directions, which those other generals counselled; and now he desires to appropriate all the honor and glory which they achieved.—*Republican Herald*, September 11.

Recollect that General Butler never served with General Scott in any of the battles of Mexico, and that the first time those generals came in contact, the former was, by order of President Polk, to supersede the conqueror of Mexico in his command. Recollect that General Wool never served with General Scott in a single battle of that war and was never with his army. Recollect that General Lane did not join General Scott until months after the capture of the city of Mexico. Recollect that General Pierce did not join General Scott's army until after the siege of Vera Cruz and the battle of Cerro Gordo. Recollect that he commanded his brigade at the battle of Contreras only on the afternoon of the 19th, and that when the decisive contest on that field came on, on the morning of the 20th, he was "unable to keep his saddle or to walk, in consequence of a severe injury from the fall of his horse the day before," and the command of his brigade devolved "upon Colonel Ransom, of the 9th infantry." Recollect the same injury prevented General Pierce from partaking actively in the battle of Cherubusco. Recollect, that his brigade, like Twiggs' division, was not prominently engaged in the battle of Molino del Rey, although he with it was exposed to the heavy fire of the enemy. Recollect that General Pierce was, "in consequence of severe indisposition," confined to his bed during the storming of Chapultepec, and that during the 13th of September, while the only remaining regiment (the 9th) of his brigade was in the field, on the causeway of Belen, the same illness prevented him from being at its head, and it was not until four o'clock on the morning of the 14th of September that he rejoined that regiment at the gate of Belen, and that the city surrendered without another gun being fired by the American army. Thus much for four of the above Generals, whom the *Herald* says "fought and conquered hand to hand while General Scott sat safely at a distance giving directions which those Generals counselled."

Milwaukee and Dubuque.

We copy below a very interesting article from the Dubuque *Tribune*, containing information of great importance to our people, as showing the interest taken in Iowa in the subject of a railroad Convention with Milwaukee, and the prospect held out, by the movements of the companies, of a speedy completion of a road through the Southern tier of counties:

Mr. Brodhead, Chief Engineer of the Milwaukee and Mississippi Railroad Company, and Mr. Budd, a Director of the Southern Wisconsin Railroad Company, addressed the citizens of Dubuque at the public room of the Wapies House, on Monday evening last. The object they had in view, was to induce our citizens to become interested in the building of those roads to the Mississippi River opposite this place. Mr. Brodhead stated that the Milwaukee Company would have a track completed to Janesville, 65 miles, by December next, and that if the people west of Janesville, along the contemplated line of the Southern Wisconsin Road, would raise from $350,000 to $400,000 dollars of stock in that Road, the Company would undertake to complete the Road to the Mississippi River in the space of about two years. The distance from Janesville to Dubuque is 95 miles, and the route as far as Shullsburgh is represented as highly feasible, and passing through a rich and highly productive region. After passing Shullsburgh the route is more difficult, but by no means impracticable.

Mr. Budd stated that the primary object of the Southern Wisconsin Company was to build a Road to Dubuque, and that if our citizens would now engage in the enterprise, and take stock to the amount of 150,000, there was no question but what the road could be promptly built. The people at Janesville and along the line would take about $250,000. The Milwaukee Company would then then take hold of the work and push it forward with all their means and credit, which were now ample.—Mr. Budd read a letter from the Attorney of the Milwaukee Company, to the Attorney of the Southern Wisconsin Company, stating that the directors of the former were desirous of entering into an arrangement with the latter to build their road to Dubuque, and that if from $300,000 to $400,000 of Stock could be taken along the line, and at the Western terminus they would do so, and commence the survey immediately.—They would also, if desired, amalgamate their road with the Southern Wisconsin Road, and make it one stock from Milwaukee to Dubuque.

The meeting was also addressed by Messrs. Geo. W. Jones, F. Langworthy, and Platt Smith of this city, who expressed their conviction of the importance of falling in with the offers made, when placed before us in a tangible and autoritative form. A committee of 12 was appointed to solicit stock in the Southern Wisconsin Road, to report another meeting, appointed for last evening. The meeting also unanimously voted to request the City Council to submit to the people the question of taking $100,000 of stock in that road.—*Dub. Trib.*

Milwaukee and La Crosse R. R.

Letter from Moses M. Strong.

MINERAL POINT, Sept. 17, 52.

Hon Jas. Maxwell, C. Remmington, R. H. Davis, Esq's., and the other citizens of Baraboo—

GENTLEMEN—Presuming upon the interests you feel in the early construction of a Railroad from the Lake Shore to the Mississippi River, through the Baraboo valley, I take the liberty of writing you, and informing you what has already been done in the great work of constructing a railroad between Milwaukee and La Crosse, and what it is proposed to do, and invite your co-operation.

You are doubtless aware that a very favorable character was granted at the last session of the Legislature, incorporating a company to construct a railroad between the points aforesaid, styled the "La Crosse and Milwaukee Railroad Company." The amount of stock required by the charter to be subscribed for the purpose of organizing the company, has been taken up, and the company organized by the election of Directors and officers. At a meeting of the Directors, held on the 25th ultimo, I was appointed the general agent of the company to procure stock subscriptions, and to secure the right of way; and it was at the same meeting resolved that the different routes which have been suggested for the road should be surveyed as soon as possible; and the board hope by the 1st of January, by keeping two parties of engineers in the field, to have as many as two routes surveyed entirely through from the Lake to the Mississippi, one of which will be in the valley of the Baraboo, and the other probably in the valley of the Lemonweir.

As the work of laying down rails must commence at Milwaukee, the Directors will commence there their first efforts, in the form of public meetings, to procure stock subscriptions to aid the work; and to that end a public meeting will be held in the city of Milwaukee, on Wednesday the 6th of October next, at which time statements will be made in relation to the feasibility of the route, its probable cost and income, and the city will be asked to give its corporate aid to the enterprise, to the amount of $200,000 or more, as it has already done to the Milwaukee and Mississippi R. R. and as it proposes to do, to the Lake Shore, and to the Fond du Lac Roads.

My especial object in addressing you at this time, is to request you, by a public meeting, or in such other manner as you think proper to send from your place to Milwaukee, on the 6th of October, as large a delegation as you can to attend that meeting, and let them see that the people along the line of the proposed work, are alive to the enterprise; and it would be very desirable that among those who attend, there should be some who are able and willing to lay before the meeting some account of the Baraboo Valley.—I expect delegations there from Fort Winnebago, Beaver Dam, Dodge Center, Columbus, Watertown, and indeed all along the line, and hope the meeting will be one well calculated to give a strong impetus to the work.

Very respectfully
Your ob't. serv't.,
MOSES. M. STRONG.
Pres't. L. & M. R. R.

GEN. SCOTT AND MR. POLK'S ADMINISTRATION.—There is a striking analogy between the course pursued by Mr. Polk's administration towards General Scott, and that which was adopted by the same administration towards Gen. Taylor. It was impossible for Mr. Polk and his advisers to look at any public transaction except through the spectacles of politics. Hence it so happened that when he and his Cabinet saw that the political advantages which had been contemplated by them when the Mexican war was proclaimed, were likely to enure to the victorious General who carried the standard of the Republic through successive triumphs from Palo Alto to Monterey—when they beheld him and not themselves exalted to glorious distinction by the achievements of the campaign, then it was that Scott who had solicited employment in vain before, was put in command of the army of invasion by way of Vera Cruz, while Taylor, stripped of his veterans, was left to hold his own in the valley of the Rio Grande, and was compelled afterwards to fight the battle of Buena Vista with terrible odds against him.

But it seemed as though the Whig Generals had made a compact with victory. They could not be defeated, either by the enemy in open field, or by the machinations of political adversaries working covertly to their prejudice. Taylor had won his laurels, of which nothing could deprive him; and in sympathy for the persecutions devised against him in high quarters, as well as admiration of his sterling qualities of character and his brilliant victories, the people bore him aloft in their arms, protected him by the invulnerable shield of their favor, and placed him in the Chair of State in spite of adversaries of every sort.

But Scott was doomed to struggle with difficulties, too, by reason of inadequate support from the Administration at home; and when he had fought his way to the city of Mexico, and had signalized his services by a successful campaign which military men of all countries look upon with wonder, we find him upon frivolous pretences subjected to a Court Martial at Pueblo, the command of the army taken from him, and he, the victorious General, humiliated, in so far as capricious tyranny could humiliate such a man, by being brought to answer before his inferiors for a series triumphs which he had dared to achieve in the very face of the displeasure of Mr. Polk and his Cabinet.

Previous to this the administration had sought to supplant him by creating a higher grade of rank than that which he held; and Thomas Hart Benton, who wanted nothing but military experience and a knowledge of military affairs, to constitute him a soldier and a General, was nominated to the Senate for the post of Lieutenant General, which, with his hobby ready comparisoned, he was willing to undertake though Scott and Taylor were thereby to be superceded. The Senate, however, were not willing to endorse this monstrous outrage—so that Mr. Benton was left to fight his political battles in which no bones were broken, and to defy on the floor of the Senate the harmless pistol of Mr. Foote.

If there was a speedy and powerful reaction in the public mind at the treatment which Taylor experienced in the hands of Mr. Polk and his administration, we may expect to see a similar vindication of Scott and his well won glory. The people will take care of their own. A generous spirit of frank acknowledgement for great services nobly rendered, a sense of judgment at the impostures of narrow-minded politicians, will be sure to come to the rescue of Gen. Scott, and bear him triumphantly to the highest place in the popular regard.—*Baltimore American.*

MAMMOTH EGG PLANT.—Mr. Sommers of the village, exhibited at the County Fair a specimen of Egg Plant which we had the curiosity to bring home and measure. It measures one foot in length and twenty inches in circumference, and weighs three pounds, nine ounces. When this is beaten Mr. Sommers will try again.—*Madison Democrat.*

THE GATHERING OF THE STATES.

The moon was shining silver bright,
The stars with glory crowned the night;
High on a limb that same old coon,
Was singing to himself this tune.

Chorus—
Get out of the way, we're bound to lay 'em,
Get out of the way;
Get out of the way, we're bound to lay 'em,
Clear the track for Scott and Graham.

From East to West, from North to South,
The Locos all are down in the mouth,
They know that they have got to yield,
For General Scott is in the field.

Chorus—

The Empire State, in bold array,
Will strike for the hero of Chippewa.
And the Keystone state will nobly stand,
The pride and the glory of the land.

Chorus—

The Buckeye State, next on the list,
Will grind the Locos in a grist,
And of all the rest, in spite of fate,
We're bound to be the Banner State.

Chorus—

The Old Dominion State, as one,
With North Carolina's favorite son,
Will dose the Locos almost dead,
On Lusty soup and Graham bread.

Chorus—

The Locos they will long remember,
The great defeat of next November,
And when they see the mighty throng,
They'll have to think of this old song.

Chorus—

THE MARKETS.

MILWAUKEE, Sept. 29, 1852. }

Receipts by Railroad, 28th—3970 bus wheat; 223 do rye; 72 do corn; 202 do oats; 141 do barley; 42 do flax seed; 14 do potatoes; 50 bbls flour; 61 tubs, 6 firkins butter; 2 hogs; 6 sheep; 2 calves; lot of hogs, butter, eggs, &c., 2500 lbs; 3,370 lbs hides and skins.

Yesterday was a very busy day in market, and the receipts were larger than on any previous day during the season. As the railroad progresses westward, it draws produce to it from a considerable distance on each side, and the business is already quite as large as the company has the means of accommodating. More cars will be put upon the track immediately, and they are much needed.

Prices were firm yesterday, with very slight variation from those of the day before.

Wheat—Receipts heavy, and sales at 70@75 for new winter, 45@50 for hedgerow and Black Sea Spring, 62@66 for Club ditto.

Oats—25c were paid readily at the station.

Rye—Steady at 54@55c. We heard of an offer of 56c for a large lot in store, but 57 was asked.

Barley—Heavy receipts—prices ranging from 40@52c—mostly over 45, and we heard of one superior lot bringing 55c.

Flax seed begins to come in, in small lots—and we note a sale of 70 bu at 1,00@1,12½.

WORTHY OF ALL CONFIDENCE.

DR. STORM'S CELEBRATED SCOTCH COUGH CANDY.—No medicine ever invented has gained more popularity than this, nor is there any more deserving of it. There are so few compounds worthy the high merit claimed for them, that when one which is really destined to benefit the afflicted is put forth, we are slow to believe our most intimate friends, when they praise it. But Storm's Scotch Cough Candy is sold at a price so low, it must be evident to all that if it did not sustain a good reputation, enough would not be sold to pay for advertising. Almost every person that uses this article according to direction will feel justified in recommending it to others, it needs but a small outlay of money and time to satisfy the most sceptical that it is worthy of all confidence as a remedy in diseases of the Chest and Lungs.

Price, One Dime per Roll; 3 Rolls for 25 Cents; or $1 per Doz.

OFFICE OF THE
Association for the Exhibition of the Industry of all Nations.
NEW YORK, JULY 12th, 1852.

THE ASSOCIATION FOR THE EXHIBITION OF THE INDUSTRY OF ALL NATIONS give notice that the Exhibition will be opened, in the City of New York, on the 2d day of May, 1853. The Municipal Authorities have granted to them the use of Reservoir Square, and they are proceeding to erect thereon a building worthy of the purpose to which it is to be devoted. The Association desire to make the Exhibition, in fact as well as in name, a Representation from other countries as well as their own, of Raw Materials and Produce, Manufactures, Machinery and Fine Arts. To this end they have made arrangements with CHARLES BUSCHEK, Esquire, late Commissioner of the Austrian Empire at the Industrial Exhibition of London, whose skill, experience and high character offer the most satisfactory security to Contributors from abroad. Mr. Buschek is the authorized Agent of this Association for all countries other than the Continent of America, and as such has received its instructions. All communications from Contributors abroad must be addressed to him at "The Office of the Exhibition of the Industry of all Nations in New York," No. 6 Charing Cross, London. He will state to them the nature of the powers given and authority conferred, and will also explain the great inducements offered by this Enterprise to European Exhibitors. This association will correspond with all persons in the United States, the Canadas and British Provinces, the West Indies, and the Continent generally, who may desire to contribute to this Exhibition. All such communications must be addressed to "THE SECRETARY OF THE ASSOCIATION FOR THE EXHIBITION OF THE INDUSTRY OF ALL NATIONS NEW YORK." The Association is now ready to receive applications, and it is desired that they be sent in immediately. Due notice will be given, hereafter, when the Building will be ready for the reception of articles. Application for the admission of Objects to the Exhibition must represent intelligibly their nature and purpose, and must also state distinctly the number of Square Feet, whether of Wall, Floor or Counter, required. Machinery will be exhibited in motion—the Motive Power to be furnished by the Association—and applications for the admission of Machinery, to be so exhibited, in addition to the general description and the requisition for space, must set forth the amount of Motive Power required. The Association deem it proper to announce that Paintings in Frames will be exhibited. As, notwithstanding the magnitude of the proposed Building, there must, necessarily, be a limitation of space, the Association reserves the right to modify or reject applications; but, in so doing, will be governed by strict impartiality, looking only to the general objects of the Enterprise. The Association also reserves the right of determining the length of time, not to exceed in any case one season, during which objects shall, severally, form part of the Exhibition. Exhibitors are requested to designate an Agent, to whom their contributions shall be delivered when withdrawn from the Exhibition. Prizes for excellence in the various departments of the Exhibition, will be awarded under the direction of Capable and Eminent Persons.—With this statement the Directors solicit the co-operation of the Productive Intellect and Industry of their own and other countries.

DAILY SENTINEL.

From Havana.

We have, by the last arrival, another flood of details of the recent Cuban intelligence. From the correspondence of the N. Y. Tribune we cull the following paragraphs :—

Last Friday, the 11th inst., an American barque approached the mouth of the harbor, and made a signal for a pilot. One went off, and immediately she bore away for Mariel, a port about twenty-five miles to the westward of Havana, to which it appears she was bound. This circumstance created suspicion, and it being feared that she was loaded with filibustiers, the Pizarro was ordered to be got ready for sea, and left the port late in the afternoon in pursuit. The American was sighted and was seen to enter the port at Mariel. The steamer arrived before the place after dark, by which time it blew rather strong, and was very dark. This caused the pilot to recommend the captain to keep the vessel off and on until morning ; but the latter, in his zeal to serve his country, insisted upon following the suspicious vessel into the harbor, fearing that the filibustiers would land before daylight. In running in, she went on the rocks, and has become a total wreck, the guns of the vessel and light gear only being saved. It turns out that the American vessel only contained her cargo, and was manned by a crew of some seven or eight men, captain and cook included, and the master took the Pilot, as he was totally unacquainted with the port.

The loss of this useful steamer is sensibly felt at this moment, when more of her class would add to the security of the Island. She is worth about two hundred and fifty thousand dollars.

Sound Argument.—Henry C. Carey says there is one greater invention than that of the Railroad to wit : that which brings the market to the farmer's door, and thus destroys the need for transportation even by railroad. What is it that makes land valuable ? What has made it everywhere valuable ? Proximity to market ; bringing the customer to the side of the producer. The land of Belgium is of the highest value of any in the world, because there the consumer and producer are most completely in connection with each other. That of France has enormously increased in value, as the consumer has more and more taken his place by the side of the producer. What destroys the value of land ! The separation of the consumer from the producer, for that is invariably followed by exhaustion of the land, and its abandonment. For the last two centuries, no effort has been spared to prevent their coming together on the land of Ireland, but all efforts failed, until at the Union, provision was made for the abolition of all protection, the result of which seen in the fact, that a large portion of that country is now on sale for the mere amount of money that, in better times, was lent to the owners on mortgage security. In India, British free trade has annihilated the domestic manufacturer, and, with each step in the progress of the operation, land has lost its value, because as in Ireland, the people have been more and more compelled to depend on the distant market. Everywhere land acquires value, and its owner becomes enriched, as the owner is more and more brought to take his place by the side of the consumer ; and everywhere it loses its value as the producer is more and compelled to depend upon the distant market, because the cost of transportation constitutes the first tax to be paid by both land and labor, and because the cost of going to market must be paid for by the man who has either labor or its products to sell.

Milwaukee Bricks.—The yellow bricks of Milwaukee have been lately introduced into the city, and an immense store adjoining the churchyard of Trinity, is now in course of erection from this handsome material. Those of our readers who have ever gone the round of the English Watering places, remember the airy and pleasant aspect imparted to those towns by the universal use of the yellow brick. In London, also, it is in very common use, though its freshness is immediately lost in the smoky atmosphere of that metropolis, where every object out-of-doors, from shirt-collars to Saint Paul's, is pepper-and-salted. One great advantage of using the yellow brick is that one may have his house of an agreeable colour without resorting to the use of paint, which is a source of frequent expense, as well as being for many other reasons, objectionable. For country houses in particular, this brick is highly desirable; as it harmonizes beautifully with the foliage, and gives a rich inviting air to the house. It is more expensive than the common article, but such is the desire, now-a-days, for original-looking and tasteful structures, that the question of cost seems to be, of all others, least considered. It is, therefore, safe to predict, that the monotony of red brick and brown stone, is destined to be broken by the insertion, here and there, of a cream-coloured edifice, dug from the clay-beds of Milwaukee.—*Home Journal, New York.*

Good Advice.—The following letter from Louis Kossuth, appears in the Newcastle (England) *Chronicle of a late date :—*

Dear Sir :—In your letter of the 18th inst. you ask me, at the request of your men, about the prospects of agricultural laborers and coal miners in America. I feel honored by this confidence, and gladly give you my impressions :

The United States, especially the Western portion of the country—Wisconsin and Iowa—offer most favorable chances for emigration, especially to every industrial agriculturalist who has some capital, £100 or £200.

There is not the slightest doubt that in a very short time he must succeed, as the value of the land increases materially by the natural progress of the settlement towards the West, while the farmer has, besides, all the benefits of his industry by his annual crops. Congress land at $1 25 (equal to five English shillings) the acre, fetches when cleared and brought under cultivation, in a very few years, ten to fifteen and more dollars the acre. There are, besides, such facilities for the education of the children, to whom the social equality opens the most honorable career, that I strongly advise emigration to every agriculturist who has some capital.

The daily laborer encounters more difficulties. Wages amount commonly in the West (besides board and lodging, which is given to the laborer,) to eight dollars (thirty-four shillings) a month ; for an agriculturer during harvest time, one dollar a day, but hired labor is not so much required as in England, the Farmers in the West being all small Proprietors, who work their fields themselves.

As to the wages of the coal miners, I have no experience, but I know that extensive coal fields are worked all over the Union, especially in the State of Pennsylvania, and skilled laborers always find employment. With sincere thanks for your sympathy, yours faithfully,

LOUIS KOSSUTH.

Whig Mass Meeting.

Pittsburgh, Sept. 23.

The city presented a lively appearance to-day from an early hour.

Delegations were present from all the adjoining counties, with flags and bands of music.

At the appointed hour the meeting organized in the yard of the American Hotel, over the entrance to which a beautiful arch was erected.

Gen Joseph Markle presided.

The meeting was addressed by Gen. Leslie Combs, of Ky., and several other able speakers.

The number present is differently estimated, it is generally conceded that it fell but little short of three thousand. After the meeting, three hundred and sixty marched in procession through the principal streets, with banners and devices.

Chicago to New York by Rail Road.—Some days since we announced the opening of the railroad from Cleveland to Conneaut. From Conneaut to Erie, the terminus of the Buffalo and State Line road, is thirty miles, and we now understand that the track for this entire distance will be ready for the cars some time during the month of October. This will give uninterrupted communication from New York city, either by Buffalo or the N. Y. & Erie Road, as far west as Cleveland. We understand from the Toledo Republican, that the road from Cleveland to that place, will be completed about the 1st of November next. At Toledo it will connect with the Southern Michigan and Northern Indiana road, and thus complete the chain from the Atlantic to Chicago.—*Chicago Times.*

California Emigrants.—The St. Joseph (Mo.) *Gazette* contains a list of emigrants who have died on the plains this season, in which appear the following names from Wisconsin :—

Nancy Spencer, S. King, J. A. Johnson, Mr. Kelley, Mrs. Louisa Turner, John Turner, —— Patent, ——King, R. Dixon, H. D. Williams, E. Willey, Miss Dodge, P. McMorrow, V. E. Wright, J. Means, Thos. Hawes, E. Hebins, Jane Bearly, Jos. Wright, Caroline Ostrander, D. Donovan, Anthony Pitgrew, Morris Venins, R. William, T. M. Kinsey, Mary J. Rider, J. Bukly.

What Does it Mean ?—We learn, upon good authority, that Gen. Cass, on Wednesday gave a dinner to some of his political friends, but that, for some unexplained cause, *he neglected to extend an invitation to Senator Douglas !* What does it mean ? We also learn that during his speech, in the afternoon, he referred so frequently and so significantly to the charge of "Old Fogyism," which Douglas had preferred against him, that the "Young Giant," who was sitting by his side, left the stand with signs of marked displeasure. These little evidences of ill-feeling and jealousy amongst our opponents are much to be regretted, if not really distressing.—*Detroit Tribune.*

H. H. RAYMOND'S
Spherical Disinfecting Fluid.

FOR purifying the air of sleeping and sick rooms, cabins and holds of ships, particularly for passenger ships, at sea or in port, prisons, jails, crowded rooms in general, from offensive, close and infectious air of all kinds, including the infectious spheres of cholera, ship, typhus, yellow, bilious, scarlet and other fevers of our own or Southern and Western climates, in cities and towns, on land and water. Also, for disinfecting the bodies, clothes and trunks of persons who are in or have been in the atmosphere of infectious diseases.

This fluid is healthy to breathe or take internally, and instead of filling the room with a choking, irrespirable air, as the chloride of lime and other chemical preparations in use do, it makes the whole air sweet and salubrious, and at the same time strengthens the respiration and enlivens the spirits of those present, by its balmy, fragrant and tonic influence.

The Following Certificate

selected from a number, can be seen at the store of the agents :

Astor House, New York, 17th April, 1852.

We have used H. H. Raymond's Disinfecting Fluid, and recommend it to all as an excellent article, the best we have ever used.

Signed, COLEMAN & STETSON.

GENTLEMEN'S FURNISHING GOODS.

They are confident in view of their very superior and unsurpassed facilities for the purchase of goods in the Eastern markets from cash auctions, importers and manufacturers, in all cases from first hands, one of the firm residing and superintending the business of their concern in Philadelphia, that they are not only able, and do buy their goods from 20 to 25 per cent cheaper than most houses in the city who buy on credit, and of jobbers, but they are able and are determined to sell that much lower. They deem it superfluous to attempt, as it is impossible to enumerate the articles that comprise their stock, which in extent is unrivalled by any similar establishment west of the Atlantic cities.

To their friends and customers, and those who know them, it is needless to say anything, but to strangers who are in want of articles comprising their stock, they will say, call on us and let us show you the great inducements we are able to offer ; we will give you polite and respectful attention, with better bargains than you are able to get elsewhere. BATENT MEDICINES.

CHERRY PECTORAL
For the rapid Cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

MANY years of trial, instead of impairing the public confidence of this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys.—While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud on the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the CHERRY PECTORAL does not only as a general thing, but almost invariably, cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log-cabin of the American peasant, to the palaces of European kings. Throughout this entire country, in every State, city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best remedy extant for diseases of the Throat and Lungs, and in many foreign countries it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, CHERRY PECTORAL is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of the lungs.—Also in milder cases, and for children it is safe, pleasant, and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incidental to childhood.

The CHERRY PECTORAL is manufactured by a practical Chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.

We have endeavored here to furnish the community with a medicine of such intrinsic superiority and worth as should commend itself to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated and countless trials proved itself to be ; and trust by great care in preparing it with chemical accuracy, of uniform strength to afford Physicians a new agent on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

Dr. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!

THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of Pepsin, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Pepsin is the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the *Digestive* Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says : "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York ; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia ;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful.

Dr. Graham, author of the famous works on "Vegetable Diet," says : "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER,

Dr. Houghton's PEPSIN has produced the most marvelous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement ; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms ; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ Observe This.—Every bottle of the genuine Pepsin bears the written signature of J. S. Houghton, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicines.

THE WORLD'S FAIR

PREMIUM SAFES.

DEPOT,
Green Block, Water St.,
(Between Maiden Lane and Wall Street,)
NEW YORK.

THE SUBSCRIBER PLACED HIS FIRE AND BURGLAR-Proof Iron Safe in competition with the whole world at the great Exhibition in London, for which an impartial jury awarded a medal.

The American Fair, held last fall at Castle Garden, also awarded to him a gold medal for the best Fire-Proof safe, and he has never failed to obtain the highest premium when his Safe has been put in competition with others for that purpose. Certificates have been received from the following well-known mercantile houses, who have had their books, papers and money preserved in these superior Safes within the last thirty days, (and can, with many others, be seen at my store,) viz. Messrs. Stillwell & Montross, and Mr. J. L. Watkins, in the Fulton Street fire; Messrs. Fisher & Robinson, and Messrs. John Lockwood & Co. in the great fire corner of Liberty and Nassau Streets, and Messrs. Proud & Bowman, in Jersey City.

I am the proprietor of HALL'S PATENT LOCK, which obtained a medal (in the name of Adams & Co., Boston,) at the World's Exhibition, and is considered the best Lock for the price, ever invented, being proof against powder, and the Key is no larger than a cent, and can be made changeable.

I invite all purchasers to a close and careful investigation before purchasing, and decide for themselves, who makes the best Fire, Burglar and Damp-Proof Safes combined.

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richmond, at West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty-eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 19, 1849. Philadelphia."

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

HAWKINS'

STAVE DRESSING MACHINE.

PATENTED JULY 22, 1851.

THIS machine is now in successful operation at the shop of Wm. Hawkins in this city, and will dress Staves for

Packing, Flour and Whiskey BARRELS,

and PIPES or HOGSHEADS, at the rate of

600 Whiskey or 800 Flour Barrel Staves PER HOUR,

straight, winding or crooked. In fact, any stave that can be worked by hand will be dressed by this machine, either for tight or slack work from 22 inches to 72 inches in length of any reasonable width, and to *any requisite bilge*, and in the most perfect manner. The stave passes through the machine a single time, is dressed by rotary cutters and is then ready for the truss hoops. The dressing of the sides and jointing of the edge of the stave is performed perfectly. The machine is made of iron, is strong and durable, and is not difficult to keep in good and order too. Six horse power is sufficient to drive the machine with all the speed necessary.

The Subscribers having purchased of Wm. Hawkins the patent right for the United States are prepared to sell rights for States, Counties, or for running single machines and to furnish and set up the machines, warranted to perform perfectly. In the great saving of expense of transportation of dressed over the rough stave, the rapidity and perfect manner with which it performs its work, consists the value of this machine.

Satisfactory testimonials can be furnished if desired.
